Precipitation probability					
60%	80%	40%	60%	70%	50%

Forecast for Saturday 15 Jun 2024

Weather: A similar day to Friday, with sunny spells but also heavy showers and isolated thunderstorms possible throughout. Periods of lower cloud also possible, perhaps most likely at first this morning and then again during this afternoon, when the showers may merge into longer spells of rain.

Chance of cloud-free hill tops above 800m: 30% early morning, improving to 70% for a time, but falling to 50% in the west by mid-afternoon.

Low Cloud and visibility: Areas of cloud possibly obscuring routes above 500m at times, and struggling to clear hills above 900m. These most likely early morning and from mid-afternoon in the west. Heavy showers could also bring brief periods of cloud down to 500m. Outside of cloud, visibility will be very good to excellent with distant hills clearly visible, but falling to poor or moderate in any heavy rain and very poor with hill fog.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Warm waterproof layers, and appropriate sun protection advised. Feeling cold on the mountain tops.

Forecast for Sunday 16 Jun 2024

Weather: Mostly cloudy, although some sunny spells will develop for the afternoon, along with isolated showers which may be heavy at times. A band of showers or longer spells of rain may arrive from late afternoon and last through the evening.

Maximum wind: Southwesterly 20mph with gusts 30-35mph.

Chance of cloud-free hill tops above 800m: 30% until mid-morning and possibly again through the evening. Otherwise, more than 95%.

Low Cloud and visibility: Areas of cloud covering summit above 400-500m lifting above summits by mid-morning, possibly returning across the north of the Park late evening. Outside of cloud, visibility will be very good to excellent with distant hills clearly visible, but falling to poor or moderate in any heavy rain and very poor with hill fog.

Temperature: **Valleys:** Plus 8 Celsius rising to Plus 14 Celsius.
At 800m: Plus 5 Celsius rising to Plus 9 Celsius.
Freezing level: Above summits.
